

**Instruction Sheet  
Fixed Mount**

*This part should only be installed by personnel who have the necessary skill, training and tools to do the job correctly and safely. Incorrect installation can result in personal injury, vehicle damage and / or loss of vehicle control.*

**Read instructions completely before beginning installation.**

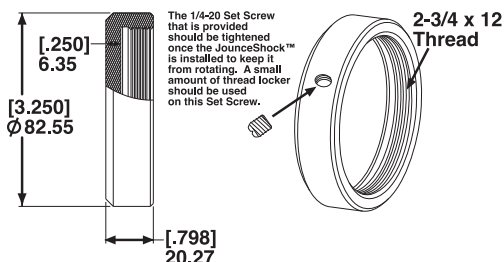

**Required Tools:**

- Welding equipment
- 1/8" hex key

**Using the Fixed Mount:**

The Fixed Mount is our most basic form of JounceShock mount. This threaded receiver comes in uncoated carbon steel so that it can be welded into any custom application as required. It provides a simple attachment point for the JounceShock. The Fixed Mount will most often be used with the Domed Foot (#25602) and Target Plate (#25608) or similar. You can refer to some of the solid axle systems that we offer for examples which utilize the Fixed Mount.

The Fixed Mount can also be used as the base receiver that can be welded into any conceivable mount or mounting system that the custom fabricator can create. It is up to the installer/fabricator to ensure that the structure that the mount is welded to is strong enough to carry the loads of the JounceShock. After welding, make sure to clean and paint the mount in order to limit future potential corrosion. Note that paint on the threads may make cause difficulty when installing. Use the 1/4"-20 Set Screw (provided) to keep the JounceShock from rotating. A small amount of thread locker should be use with this screw.

For more information on determining the placement of the JounceShock refer to the Technical Information section of our website [www.lightracing.com](http://www.lightracing.com).

**Material: Carbon Steel**

*There is no warranty stated or implied due to the inability to monitor the part's modification, installation, and use, except that Specialty Products Company warrants its products to be free from defects in material and workmanship for 90 days after purchase under normal use. In that case, parts returned must be determined by Specialty Products to be defective and Specialty Products's obligations under that warranty are solely limited to repairing or replacing, at its option, any part proven defective.*

*Final determination of the suitability of the parts for use contemplated by the buyer is the sole responsibility of the buyer. Specialty Products Company shall not be liable for any special, direct, indirect, incidental, or consequential damages that might be claimed as a result of the failure of any part, including claims for delay, loss of profits or labor. Specialty Products Company shall not be liable for any damage or injury to persons or property resulting from improper installation or misuse of any part subject to this warranty. There are no other warranties expressed or implied extending beyond those set forth above.*
